Give the top part of this form to your pension payer or annuity. Keep the lower part for your records.

**Note: Unless you elect otherwise, state law requires that California Personal Income Tax (PIT) be withheld from payments of pensions and annuities.**

This form DE 4P allows you to:

- (1) Claim a different number of allowances for California PIT withholding than for federal income tax withholding.
- (2) Elect not to have California PIT withheld from your periodic, or nonperiodic, pension or annuity payments.
- (3) Elect to have California PIT withheld on periodic or nonperiodic payments based on:
  - (a) The number of allowances and marital status specified.
  - (b) A designated dollar amount.
- (4) Update the DE 4P previously filed.

**Withholding from Pensions and Annuities:** Generally, withholding applies to payments made from pension, profit-sharing, stock bonus, annuity, and certain deferred compensation plans, from Individual Retirement Arrangements (IRA), and from commercial annuities. Withholding also applies to property other than cash distributed.

In compliance with federal law, California PIT is not to be withheld from pension recipients who reside outside of California.

Periodic and nonperiodic payments from all the items above are treated as wages for the purpose of withholding.

A periodic payment is both:

- Included in your income for tax purposes.
- Received in installments at regular intervals over a period of more than one full year from the pension or annuity's starting date. The intervals can be annual, quarterly, monthly, etc.

For example, if you receive a monthly pension or annuity payment and will continue to receive payments for more than a year, the payments are periodic. However, distributions from an IRA that are payable upon demand are treated as nonperiodic payments.

There are some kinds of periodic and nonperiodic payments that do not require a DE 4P since they are already defined as wages subject to PIT withholding. Your payer should be able to tell you whether a DE 4P is required.

Your certificate is usually effective 30 days after you file the form. The certificate stays in effect until you change or revoke it.

**Methods of Withholding:** The payer can use one of the following three methods:

- (1) An amount determined by using the California withholding schedules. Payee completes lines 2 and 3 above.
- (2) A dollar amount that you designate. Payee completes line 4 above.

- (3) Ten percent of the federal withholding amount computed pursuant to section 3405 of the Internal Revenue Code (law.cornell.edu/uscode/text/26/3405). Payee completes line 4 above.

**Completing the Form:** Fill in your full name, home address, Social Security number, and the identification number (if any) of the pension or annuity.

**Line 1, Exemption from Withholding:** Check this box if you do not want any PIT withheld from your payment. You do not need a reason for claiming the exemption from withholding.

**Caution:** Remember that there are penalties for not paying enough tax during the year, either through withholding or estimated tax payments. You may be able to avoid paying quarterly estimated tax to the Franchise Tax Board (FTB) by having enough tax withheld from your pension or annuity using the DE 4P.

**Revoking the Exemption from Withholding:** If you want to revoke your previously filed exemption from withholding for periodic and nonperiodic payments, file another DE 4P completing lines 1, 2, 3, or 4.

**Line 2, Withholding Based on Specified Withholding**

**Allowances:** If you want withholding to be calculated based on a specified number of allowances, write the number on line 2, and check the filing status box you want. The worksheets accompanying this form may be used to figure your withholding allowance.

**Line 3, Multiple Pensions or More than One Income:** Indicate additional amount to be withheld from each payment. You may use Worksheet C, accompanying this form, to determine the additional amount.

**Line 4, Withholding a Designated Dollar Amount:** Indicate dollar amount you want withheld on this line instead of claiming withholding allowances.

## Instructions — 1 — Allowances\*

When determining your withholding allowances, you must consider your personal situation:

- Do you claim allowances for dependents or blindness?
- Will you itemize your deductions?
- Do you have more than one income coming into the household?

If you have a working spouse, more than one job or income, it is best to figure the total number of allowances you are entitled to claim on all jobs using the worksheets from only one DE 4P. Allowances can then be claimed with one payer only or split among payers.

## Instructions — 2 — Additional Withholding Allowances

If you expect to itemize deductions on your California income tax return, you can claim additional withholding allowances.

Use Worksheet B to determine whether your expected estimated deductions may entitle you to claim one or more additional withholding allowances. Use last year's FTB Form 540 as a model to calculate this year's withholding amounts.

You may reduce the amount of tax withheld from your wages by claiming one additional withholding allowance for each \$1,000, or fraction of \$1,000, by which you expect your estimated deductions for the year to exceed your allowable standard deduction.
